Healing Ministries in our Diocese: <https://www.toronto.anglican.ca/diocesan-life/healing-ministries/?lang=en>

Those who'd like to minister in acts of healing need to be both trained and licensed in their specialized ministries. The Diocese lives out its ministry of healing in the following ways:

- **The laying on of hands** (currently restricted to ordained clergy)
- **Anointing with oil**: considered a sacramental act and restricted to either ordained clergy or licensed lay anointers
- **Pastoral visiting**: both generalized and specific therapeutic care offered by qualified clergy and lay pastoral visitors
- **Faith community nursing**: a growing field of specialized nursing that operates within a parish or faith community, promoting health, healing and wholeness [*Note: Faith Community Nursing is an alternate term for Parish Nursing Current representatives are Cheryle Pollock RN and Nancy Truscott RN.*]
- **Seniors' ministry**: equipping and supporting older adults in a fuller life with God.
